Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Flora, 5,343,417.

Flora's Figs. 3A-3F clearly show an adder circuit for summing a plurality of addends (the cross product ab terms) from multi-bit words (A and B) comprising a network of n-input carry-save adder circuits (the FAs) with the adder circuits being arranged in a plurality of columns (the FAs whose sum outputs are involved in the generation of a particular P bit are in a column, e.g. the FAs with outputs L_{31} and J_{31}) and in a plurality of levels (e.g. levels L1-L4) with the first level receiving a number of addends from corresponding bit positions of selected ones of the plurality of words (e.g. $a_1 b_1$ and $a_2 b_2$) and the lower levels each receiving addends from one or more of (i) – (iii), (e.g. the sum output L_{31} meets condition ii) wherein the number of n-input adders in each column varies according to the bit position (e.g. the FAs in the two rightmost columns of Fig. 3C).

Relative to applicant's remarks, the preceding paragraph clearly shows how the claims are being read on Flora. Applicant's remarks relative to element 21 and the serial adder are not pertinent.

Claim Rejections - 35 USC § 112

3. Claims 8 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 2 of claim 8 “two”, both occurrences, should be “one” because if n is three then sum is expressed with a single sum bit and a single carry bit. In the last line of claim 15, “first” should be “second”, note the last paragraph of claim 13.

Allowable Subject Matter

4. Claims 13, 14 and 16-19 are allowed.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DAVID H. MALZAHN whose telephone number is (571)272-3727. The examiner can normally be reached on M-Th from 7:30 to 6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lewis A. Bullock Jr, can be reached on 571-272-3759. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
